

Headshot at Home HOW TO?

1st

FIND A FRIEND OR FAMILY MEMBER THAT WILL HELP SNAP A PIC OF THAT PRETTY FACE.

2nd

CLEAN THAT DIRTY CAMERA

3rd

FIND A PLACE WITHOUT DIRECT SUNLIGHT

**Shaded areas are my fav,
if inside.. no florescent lights**

early mornings and evenings are best

Keep your back drop simple...

**brick walls, wood wall, stucco walls
also, stay away from patterns**

last

TAKE SOME GOOD PICS

**think about the placement in the shot,
we can always crop, but we can't create.**

**look for epic shadows...we don't want
that.**

**no filters, NO FLASH
use that natural light**

then send them to Fat Bird

Head Back to Fat Bird [HOMEPAGE](#)
